Stun Guns

Stun guns use high voltage and low amperage to disable an attacker for several minutes. The stun gun does not rely on pain for results. The energy stored in the gun is dumped into the attacker's muscles causing them to do a great deal of work rapidly. This rapid work cycle instantly depletes the attacker's blood sugar by converting it to lactic acid. In short, he is unable to produce energy for his muscles, and his body is unable to function properly. The stun gun also interrupts the tiny neurological impulses that control and direct voluntary muscle movement. When the attacker's neurological and muscular system is overwhelmed and controlled by the stun gun, he loses his balance. Should the attacker be touching you, the current will not pass to your body!

THE RECHARGEABLE 75 MILLION VOLT TRIGGER STUN GUN with flashlight and wrist strap disable pin by Safety Technology has a unique trigger design for easy operation and lifetime warranty. With a quick pull of the trigger you can have an attacker begging for mercy. It has a rubberized coating to ensure a nice, tight grip. The super bright 100 lumen flashlight will blind any attacker or it can be used as an everyday flashlight.

The stopping power on the Safety Technology TRIGGER stun gun is excellent with 4.8 milliamps of electrical current to bring down the enemy. No need to keep track of another charger since the recharger prongs are built in to each unit. The charge on the nickel-cadmium battery can last for up to 3 months depending on usage.

The Trigger stun gun comes with a disabling pin wrist strap that is an added safety feature. With the strap around your wrist, if the stun gun were to be knocked out of your hand or taken away by a thug, it will be rendered useless. It is available in 6 colors Black, Blue, Pink, Purple, Red and Zebra. **LIFETIME WARRANTY.**

The **ZAP BLAST KNUCKLES EXTREME** at 950,000 volt is a shocking high voltage stun gun that provides you with an easy way to protect yourself while on the go. The rubberized contour grip ensures you'll have a firm grip while the 950,000 volts of stun protection await their call to action. Set in an intimidating spiked design, the four sharp electrodes add a layer of protection that on their own allow a serious blow to your attacker should you choose not to use the stun feature or the batteries need replacing. The spikes also offer you, during a self-defense situation, a way to collect DNA evidence that may prove useful to later present to the authorities. Use while jogging, walking alone at night, or exploring unfamiliar places for a convenient and instantly accessible way to keep yourself safe from the unknown.

Features: 4 Ultra-sharp Spike Electrodes offer extra protection and DNA collection for the authorities, Rubber coated with soft contour grip for full control, Red LED on/off indicator, Perfect for joggers, Includes 2 lithium CR123A batteries and heavy nylon case with belt clip.

Pepper Shot Pepper Spray

Pepper Shot Pepper Spray is made with 1.2% Major Capsaicinoids. The Major Capsaicinoids are the true heat measure and Pepper Shot 1.2% MC is more effective than of most other pepper sprays. In addition to causing an attacker pain, The Pepper Shot 8.5% oleoresin capsicum formula swells the mucous membranes, which makes breathing difficult, and swells the veins in the eyes, causing the eyes to close. It's made from 2,000,000 SHU's of raw pepper and these effects can last up to 45 minutes and cause no permanent damage. Has a UV identifying dye to help aid in the identification of an attacker.

WATER BASED INERT PRACTICE DEFENSIVE SPRAYS use water instead of pepper spray. They are pressurized with nitrogen. Their purpose is to be used as a practice spray instead of wasting a real pepper spray. They will enable the user to get proficient at using a defense spray. **WARNING:** Do not spray on anyone or yourself. Even though there is nothing in the sprays to do any permanent harm to anyone, the nitrogen can cause some skin irritation or burning if sprayed in the eyes.

WILDFIRE 1.4% MC STICKY PEPPER GEL -

It Has a UV identifying dye to help aid in the identification of an attacker. Once sprayed this Pepper Gel acts like glue to your assailant. If the attacker attempts to wipe or rub the Pepper Gel away it begins to permeate the skin leaving your attacker in pain. If used properly indoors you don't have to worry about overspray, as it will stay in the direction where its sprayed and will not affect others in close proximity. Pepper Gel Sticky Pepper Spray is ideal for a car, recreational vehicle, camping, or home. This Pepper Gel Sticky Pepper Spray has many convenient features including: longer distance range, stronger pepper mixture, sticks to the target like glue, its also less contaminating, and nonflammable.

Animal Repellents

The **GUARD ALASKA® BEAR SPRAY** ultra hot pepper spray has proven so effective at repelling bears, it is the only one registered with the EPA as a repellent for *all species* of bears! It is absolutely the most effective and powerful bear defense spray available. It is safe for the environment in that it does not contain flammable or ozone depleting substances. The formula is scientifically proven superior, and it even works on wet bears because the specific gravity of the carrier is heavier than water.

DOG REPELLER/TRAINER can be used to deter unwanted dog or as a training device to back up your commands. The dog Repeller will produce a discomforting but not harmful high frequency sound, Audible to dogs and cats but not humans. When a dog hears the high frequency sound it will become uncomfortable and should move away or not approach any further.

The Dog Repeller/Trainer comes with 2 settings, 1 for training your pet, and 2 for deterring aggressive dogs.

This model uses No Shock Technology which is completely safe to animals and humans. This humane training technique uses a confirmed technique that teaches dogs to associate their barking with the irritating frequencies. Unlike shock collars that are painful and can be used only on one dog, the Dog Repeller/Trainer can be used virtually anywhere without you having to ask permission from your neighbors.

More than 900 children between 1 and 14 die each year in drowning accidents. In California, drowning is the number one cause of accidental death for children 1-4 years of age. But, do you really need these statistics to convince you to do everything you can to prevent this from happening to your child or grandchild?

The **POOL ALARM** is an electronic monitoring system that automatically sounds an alarm when children or pets fall into your unsupervised pool. It's portable, self-contained and light weight. The unit is simple to operate. Entry into the pool will be detected by the Pool Alarm's electronic sensor, triggering a loud pulsating alarm at the unit and inside your house from the remote receiver. The Pool Alarm installation is very easy. It sits on the pool deck as shown in the picture. It is very easy to use with control button operation and will automatically rearm once you are done swimming.

Comes with a remote receiver with flashing light which can be mounted in your home up to 300 feet from the main unit. Has a 12 volt power supply. The Pool Alarm uses 6 D batteries (not included) which should last approximately one year. There is an audible low battery indicator which will sound at the poolside alarm and the remote receiver.

The **BARKING DOG ALARM** is ideal for your home, office, store, business, or any place that would benefit from having a security dog. Except you don't have to feed, water, walk it or take it to the vet. It scares would-be intruders away by imitating the sound of a vicious barking dog (or an alarm) whenever anyone approaches.

The barking dog alarm is used to provide early warning against intrusion and to make people think twice before breaking in. According to the US Department of Justice, "a dog's presence is a close substitute for human occupancy and most burglars avoid houses with dogs".

It uses non-harmful microwaves to "see" through walls and activate either an alarm, a chime, or the recording of a German Shepard in attack mode as soon as motion is detected. The chime can be used by store owners to let them know a customer has entered the store or at home as an automatic doorbell to alert you to visitors approaching.

Please note that it will sense motion through most walls (wood, cement, brick, stucco, glass, etc.) but will not work through metal walls, walls with metal studs, tinted glass, or extremely thick walls.

FEATURES

- The microwave signal can "see" through walls and detect someone approaching from over 10 feet away
- Three modes: barking dog, chime, or alarm
- Powered by an AC adapter (included) or 8 AA batteries (not included) for temporary use during a power outage
- Wireless remote control to arm/disarm the unit, change the sound mode, or activate the panic alarm in case of an emergency
- Long-range remote control (50+ feet also work through walls).
- Eight volume levels with maximum volume of 120 dB
- Measures 6 x 5.75 x 3.75 inches.
- Warranty: 1 year
